EXPERIENCE

Jan – May 2025

ACROSSMEDIA IT SOLUTION

Web Developer and Programmer

Developed a mobile version of a client ERP system with full backend compatibility, built responsive web applications following UX best practices and client specifications, refactored and maintained legacy CodeIgniter systems to improve stability, created RESTful APIs to enable seamless mobile integration, and optimized backend processes and UI workflows for enhanced overall performance.

Jun – Nov 2022s

PIXELS WEB SOLUTIONS & CONSULTANCY INC.

Software Developer (OJT)

Built backend API endpoints using the ThingEngineer PHP ORM, developed front-end modules with Vue.js and the Quasar Framework, and collaborated within agile teams to integrate UI components with backend services.

RECENT PROJECTS & DEVELOPMENT (2024–PRESENT)

August – Dec 2024

MOBILE APPLICATION DEVELOPMENT (QUASAR, CAPACITOR, NODE.JS)

Independently developed and deployed a mobile application using Quasar Framework, Capacitor, and Node.js. Integrated Express.js, MongoDB, and third-party APIs, deployed on a Hostinger VPS with Nginx configuration, and published on the Google Play Store with Firebase Analytics and AdMob integration.

Nov 2025 – Dec 2025

WEB APPLICATION & PORTFOLIO PROJECTS (VUE.JS, QUASAR)

Rapidly developed multiple showcase and portfolio websites using **Vue.js**, **Nuxt**, and the **Quasar Framework** for client demonstrations and personal projects.

Feb 2026 – Present

AI-ASSISTED APPLICATION DEVELOPMENT (CODEX AI)

Rapidly developing and iterating web and mobile applications using AI-assisted development tools. Focused on accelerating development workflows, generating structured application components, and improving productivity while maintaining code quality and functionality. Applied AI tools to assist in UI development, logic implementation, debugging, and rapid prototyping of utility applications.

CERTIFICATIONS & EXAMINATIONS

- CAREER SERVICE PROFESSIONAL — PASSED AUGUST 10, 2025
- DICT DIAGNOSTIC EXAMINATION – PASSED OCTOBER 10, 2025

EDUCATION

2019 – 2023

FORBES COLLEGE

Bachelor of Science in Information Technology

PROFILE

Full-Stack Developer skilled in building web and mobile applications using PHP, JavaScript (Vue.js, Quasar), CodeIgniter, and modern DevOps tools. Experienced in delivering complete solutions from backend to frontend, with a strong ability to learn and implement new technologies quickly. Committed to writing clean, efficient code and continuously improving development workflows.

SKILLS

- JavaScript, PHP, HTML, SCSS, CSS, SQL
- Vue.js, Quasar Framework, CodeIgniter, Laravel, Nuxt, Tailwind, Express.js, Node.js
- Capacitor, Android Studio, Quasar-based mobile builds
- REST APIs, MySQL, MongoDB, CodeIgniter, Node.js
- Git, GitHub, VS Code, XAMPP, Hostinger, Nginx, Linux Ubuntu
- Web server setup, Play Store deployment, Firebase, VPS management, domain hosting, Google service
- Basic Figma and Video Editing
- Playstore Deployment

HOBBIES

- Web and App Development
- Chess
- Guitar, Drums
- Music
- Movies, Anime
